About fifty pool-rooms in this city were closed this afternoon, but not directly on account of the Western Union withdrawal order. These tre the rooms that were served by the Jere Mahoney information bureau In East Forty-second street, which was raided Tuesday evening. They will remain closed until Mr. Mahoney has either established a new bureau or reopened the old one.

All the other pool-rooms in town were open as usual. The scratches, overweights, names of jockeys, odds and "flashes" came in from Morris Park and the Western tracks as usual. MANY INFORMATION BUREAUS.

Previous to the arrival of President Clowry and his bunch of broncobusters from the West to take charge of the New York office the pool-rooms were served from twelve information bureaus. All of these are located in Manhattan, and when Col. Clowry arrived all were receiving their information from the Western Union direct and distributing it to their customers. Each information bureau served from twenty to seventy-five rooms. They were districted by agreement and practically formed a close corporation.

"Col. Clowry was sent here to boost business, and he saw a chance in the pool-room game. He figured that the Western Union had a monopoly, and that the pool-rooms would have to pay whatever he had a mind to soak them. So he issued an order that every information bureau and every room should pay \$25 a day extra for returns from each track used. As most of

MORRIS PARK, N. T., May 19. This was about as mean a racing day as one could imagine. The course was than a fog, for it was decidedly we grand stand, making the front seat untenable and driving the occupants to the reg of the structure. The mist was so heavy that the starts in many of the races could not be seen at all. The attendance was fairly good, never promised a fair order of sport.

The Pocantico, which was the stake feature, was not particularly attractive for the reason that it looked an easy

thing for Dolly Spanker. The second race had a cracking good field of two-year-olds. The track was fast. The Western Union employes who sending odds, jockeys, descriptions and other information to the pool-rooms are still idle. To all outward appearances the pool-room service is ended.

While Bombarding Port Arthur, Russians Report Hatsuse Struck a Submarine Mine and Sank in Half an Hour Before Her Crew Could Leave Her.

CRUISER YOSHINO ALSO MEETS WITH DISASTER; ONLY 90 SAVED.

News Is Brought to Chefoo by Russian Fugitives from Dalny and Also Telegraphed to the Russian Consul at Chinese Port by Persons in that City.

Reports from the Far East make certain that Japan has absolutely lost a battleship with 741 men, a cruiser with 210 men and possibly another battleship at Port Arthur. It is also reported that the cruiser Asama has been sunk in Kerr Bay, near Dalny.

A stunning blow to Japan is the sinking of the magnificent battle-ship Hatsuse, the star of the fleet, by striking a Russian mine. She was a nineteen-knot vessel and had been in commission only four years. . Not a man of her crew of 741 was saved. The similarity of the sinking of the Hatsuse and the Russian battle-ship Petropavlovsk, which had also a crew of more than 700 men, is striking

The first report of the sinking of the Hatsuse came from refugees at Chefoo and was not credited until it was contirmed from Tokio this afternoon. Now the full story told by the refugees is believed, and it is considered likely that the full extent of the Japanese disaster has not been reported by the Japanese officials.

Admiral Togo reports that on the same day the Hat-
